This is to advise Professor Lewis B. Katz made derogatory remarks about the Director and FBI during recent interview.

Indy
Katz was interviewed during the course of current applicant investi-
gation of [redacted] Departmental Applicant, Honor Recruit, Civil
Rights Division. (Bufile [redacted] Report of SA [redacted] dated
2-18-71, at Cleveland) Regarding applicant, Katz said "I would not comment
on the applicant's behavior during disturbances on campus unless it was
favorable." He went on to state "Hoover is ruining any effectiveness that
the FBI might have by his recent statements." He also remarked that when
two Agents conduct interviews "It must be so that one won't write another
letter like Agent [redacted] in New York City."

Katz was emphatically advised Bureau Agents did not agree with his remarks. He said he intended to express his opinions regarding the FBI whether interviewing Agents wanted to hear them or not. He was pointedly reminded purpose of interview was to obtain information regarding applicant and not to argue merits of FBI.

By communication dated 2/26/71 SAC, Salt Lake City reported that captioned, a recent addition to the faculty at the University of Utah Law School, during a taped interview for a local educational television station on 2/25/71 was critical of the Director, whom, he stated, should be replaced. In connection with this matter, the Director noted: "Place Fordham on no contact list."

Fordham, born 7-8-05, Greensboro, North Carolina, is well-known to the Bureau, although we have never conducted an investigation concerning him. In 1948 while serving as the Dean of the College of Law at Ohio State University, he spoke at a civil rights rally sponsored by a reportedly potentially subversive organization which was allegedly controlled by a small group of Communist Party members. During the rally, Fordham reportedly stated that the "Congressional Un-American Activities Committee had no valid excuse for existing."

In 1955, while Fordham was Dean of the University of Pennsylvania School of Law, the Fund for the Republic awarded a grant to that School's Institute of Legal Research for the purpose of conducting a study concerning governmental interception and impounding of nonmailable matter. In 1966, it was reported that ^{during} a convention of the American Bar Association, a committee chaired by Fordham would propose the establishment of a new "Section of Individual Rights and Responsibilities."

M. A. Jones to Bishop Memo
RE: JEFFERSON B. FORDHAM

On 12/28/70, a news release reported that Fordham, President of the Association of American Law Schools, had stated the day before that there were signs that repressive measures like those in a police state may be threatening individual liberty in the United States. Fordham also made reference to Representative William R. Anderson of Tennessee challenging the testimony of the Director before a Senate Subcommittee concerning two priests jailed for destroying draft records. Fordham quoted Anderson as saying the Director had used "Tactics reminiscent of McCarthyism." Fordham said "It is appalling to reflect upon the repressive threat to freedom and justice in such a state of affairs. Meanwhile, I salute Representative Anderson. I associate myself with him."

RECOMMENDATIONS:

- (1) That attached "Do Not Contact" memorandum be sent to Messrs. Mohr, Sullivan, Brennan, Callahan, Gale, and Rosen.

- (2) That attached letter advising of Fordham's status in this regard be sent to SAC, Salt Lake City.

List of Persons not to be

Authority

Bureau is in receipt of a copy of a letter, with enclosure, addressed to SAC, Denver, from one Keith H. Asplin, Director, presumably of captioned institution's placement office. In his letter, Asplin makes reference to the visit on campus of two Agents for recruiting purposes. In connection with their visit, a question was raised concerning the Bureau's policy of not hiring women as Special Agents. Asplin maintained that this was discrimination contrary to his school's anti-discrimination policy and was also, in the same regard, in violation of the law. He further indicated that in addition to bringing this alleged violation to the attention of proper authorities, including the Civil Service Commission and the Colorado Equal Employment Opportunities Council, the FBI will no longer be granted the privilege of recruiting on campus. In connection with this matter the Director noted: "Place Colorado State Univ on no contact list."

Bufiles contain no reference identifiable with Asplin.

RECOMMENDATIONS:

(1) That attached "Do Not Contact" memorandum be sent to Messrs. Mohr, Sullivan, Brennan, Callahan, Gale, and Rosen.

Dear Dr. Chamberlain:

I have the copy designated for me of the letter of March 4, 1971, to Mr. Scott J. Werner, Special Agent in Charge of our Denver, Colorado, field office, from Keith H. Asplin, Ph.D., Director of the Placement Office at your university, in which he alleged that this Bureau is violating the Government's equal employment opportunity regulations by restricting our Special Agent position to males and advised that in the future the FBI will not be granted the privilege of recruiting on the campus of Colorado State University. We take serious exception to his branding our policy as a violation and the purpose of this letter is to set the record straight.

In supporting his contention, Dr. Asplin referred to Section 1604.1, Chapter XIV, Title 29, Code of Federal Regulations. That citation represents regulations issued by the Equal Employment Opportunity Commission pursuant to Title VII of the Civil Rights Act of 1964 (42 U. S. Code 2000e--12). Under that statute the term "employer" does not include the United States. Equal employment opportunity for Federal employees and applicants stems from Executive Order 11478. Accordingly, the citation to which Dr. Asplin referred is not governing insofar as Federal employees and applicants are concerned. ✓

The United States Civil Service Commission has basic responsibility for implementation of equal employment opportunity throughout the Federal service. This Bureau's policy of limiting our Special Agent position to males is in concert with Civil Service

Commission regulations on this subject appearing in the Federal Personnel Manual, Chapter 332, Subchapter 4, Item 5, which state that law enforcement positions requiring the bearing of firearms are exceptions to the basic policy that consideration of applicants for appointment shall not be restricted to one sex. The FBI is in full accord with the Commission's regulations.

Further, our policy is based on a careful, objective evaluation of all pertinent factors germane to the operations and effectiveness of the FBI, particularly those inherent in the broad range of challenges which Special Agents must satisfactorily meet to enable this Bureau to properly discharge the responsibilities entrusted to it and to do so with optimum return to the public trust. Our force of Special Agents is comparatively small considering the sparse deployment of it throughout the United States and Puerto Rico. Therefore, we must insist that each Special Agent be capable of performing all duties of his position whenever and wherever necessary. This means it is imperative that each Special Agent be qualified for the strenuous physical exertion required to effectively participate in arrests and raids which involve the use of firearms, physical subduing of dangerous criminals, and self-defense. Performance of these duties frequently requires work during any time of day or night and exposure to all kinds of adverse environmental conditions. Experience has demonstrated very clearly to us that our Special Agent position must be limited to males and our stand on this point is inalterable.

May I say, also, that a policy forbidding the FBI to recruit employees from the members of your graduating classes would be unfortunate for all concerned. The FBI needs, for public purposes, to continue recruiting well-educated employees. We have in the past hired many fine young people from Colorado and neighboring states and we should like to continue looking for their equal in all logical places. It is to the interest of the university to encourage opportunities for employment which the student finds

Dr. Adrian W. Chamberlain

suitable The students who might want to work for the FBI must surely have some right to be informed of such opportunities in the manner usual to placement activities.

Would you kindly advise me whether Dr. Asplin is, as he states, speaking for your university and whether it is truly the policy of your university that we may no longer recruit on campus?

Sincerely yours,

J. Edgar Hoover

On 2/25/71 Mr. PARRY D. SORESEN, Administrative Assistant to the President, University of Utah, advised SAC Professor FORDHAM had been interviewed by students and a tape of the interview was to be shown on KUED, Channel 7, at 7:00 P.M., 2/25/71. KUED is an educational television station.

SAC and several Agents monitored the program. FORDHAM received two questions concerning the Director. To one question as to whether Director should be replaced, FORDHAM said definitely he should be. In summary, FORDHAM also made the following points during this thirty-minute program:

FORDHAM said the Director had released information about persons involved in the East Coast Conspiracy to Save Lives case which he should not have released. He said in effect the Director had tried these people and he does not like the Director's outlook.

He said Director has certain notions about preventive detention, has a strong commitment to his position, and has criticised the Supreme Court. He proposed that a younger person more sensitive to human rights should be Director of the FBI.

Mr. Scott J. Werner
Special Agent in Charge
FBI -- U. S. Department of Justice
15218 Federal Office Building
Denver, Colorado 80202

Dear Mr. Werner: *List of Persons NOT To be contacted*
without Bureau Authority

On January 25, 1971, Special Agents Eugene J. Coble and Douglas J. Williams visited the campus of Colorado State University for the purpose of recruiting graduating students for positions with the Federal Bureau of Investigation. Prior to their visit the Placement Office received informational literature to be distributed to interested students. With this literature was a page entitled "Jobs for Women in the F.B.I." The opening statement begins as follows: "Although no woman can be an actual 'FBI Special Agent'..." Several of the girls on campus registered complaints with the office stating that this appeared to be a blatant case of discrimination on the basis of sex. The girls were advised, however, to interview the agents if they were interested in such positions. It was pointed out that inasmuch as the material was a reprint from "Good Housekeeping," there existed the possibility that it was not an accurate statement of the facts.

When the agents arrived on campus, they were advised of the concerns of the office with regard to what appeared to be discriminatory hiring practices. I was assured at that time that this was not the case but that women were seldom interested in such positions. Following their interviews, however, several girls commented that virtually the entire time period had been spent listening to a discourse on why they wouldn't be interested in applying for positions as special agents.

This information along with the published statement that "...no woman can be an actual 'FBI Special Agent'..." leads me to believe that the FBI may in fact be utilizing discriminatory employment practices.

This practice is not only contrary to the University anti-discrimination policy (see attachment) but is a violation of Executive Order 11473. Let it be argued that this discrimination on the basis of sex can be defended as a bona fide occupational qualification, I refer you to Section 1604.1, Chapter XIV, of Title 29 of the Code of Federal Regulations. Subparagraphs (1) of Paragraphs (a) and (b) quite clearly denote that arguments advanced by the FBI as to the unsuitability of women for employment as

*Persons Not to be

Robert E. Gillette
~~Robert E. Gillette~~, Commonwealth's Attorney,
Nansemond County, Virginia, has furnished a character affidavit
in the captioned applicant's behalf. Mr. Gillette was placed
on the "no contact list" on 2-9-70 pursuant to the Director's
instructions after having made unjustifiable remarks concerning
the FBI's alleged refusal to investigate an extortion complaint
rising from a strike situation at a hospital in Suffolk, Virginia,
and he was designated as a person not to be contacted without
prior Bureau approval. Prior to this incident Mr. Gillette's
relations with the Bureau had been very good, and he openly
apologized for his erroneous assumption that the instructions
of the Department of Justice in the matter had been issued by
the FBI. Bureau files contain no subsequent information of an
adverse nature concerning Mr. Gillette (157-14747-37,38,39,45)

The Rules Governing Petitions for Executive Clemency
specify that it is desirable that all applications for pardons
be accompanied by at least three character affidavits, and this
rule is closely adhered to by the Pardon Attorney. Therefore,
interviews with affiants are an integral part of our APACS
investigations. Mr. Gillette is one of three individuals who
executed affidavits for the applicant.

RECOMMENDATION:

It is recommended that the Norfolk office be granted
permission to interview Mr. Gillette with instructions that the
interview be confined to obtaining his comments concerning the
applicant and that no other topics be discussed with him. If

office.

Reference J.H. Gale to Sullivan memorandum 3-29-71 in which a letter of 3-19-71 from captioned to the Director is discussed. In his letter, Doherty advised he is a subscriber of "Commonweal" and inquired as to the Bureau's purpose in having consulted subscription records of this publication. Doherty expressed his opinion that the Bureau's actions in this regard constituted an abridgment of freedom of the press. Bufiles disclose that our contact with "Commonweal," a liberal Catholic weekly publication, was in connection with a Harboring Statute investigation (conducted at the request of the Department) and was made at the specific request of a Departmental attorney. In connection with this matter it was recommended and approved, among other things, that Doherty be added to the No Contact List. Legat, Bonn was provided copies of our outgoing letters to Doherty and the Secretary of State (who was also provided a copy of our outgoing to Doherty) both dated 3-29-71, which set the record straight in this matter. Legat, Bonn was instructed to have no contact with Doherty without Bureau permission.

RECOMMENDATION:

That attached "Do Not Contact" memorandum be sent to Messrs. Mohr, Sullivan, Brennan, Callahan, Gale and Rosen.

A United Press International news release dated 4/15/71 reported that Senator Norris Cotton (R-N.H.), decried the appointment of Dr. Thomas N. Bonner as President of the University of New Hampshire. Bonner was termed an associate of Senator George McGovern (D-S.D.) whom Senator Cotton charged was promoting disrespect for Congress and impeding the President's efforts to end the Vietnam War. Senator Cotton expressed "amazement and dismay" at this appointment. In connection with this news item, the Director noted: "See that we make no contacts with Univ. of New Hampshire." In another UPI release of same date, Senator McGovern, who indicated Bonner had once worked for him, termed Cotton's speech, "one of the most preposterous and ill-mannered statements ever delivered in the U.S. Senate." Relative to this release, the Director noted: "What do we know of Bonner?"

The current "Who's Who" indicates that Thomas N. Bonner, born 5/28/23 at Rochester, New York, is an educator who holds a Ph.D. from Northwestern University, 1952. He served with Radio Intelligence Corps during World War II. A former Fulbright lecturer and Guggenheim fellow, Dr. Bonner was Academic Dean, William Woods College, 1951-54, and Professor of History and Chairman of the Social Science Department at the University of Omaha, 1955-62. He was a Democratic candidate for Congress in 1962 and a legislative aide to Senator McGovern, 1962-3. He was recently connected with the University of Cincinnati where he headed the History Department, 1963, and was Provost for Academic Affairs, 1967. He is married with children.

Bufiles indicate that in 1962, Bonner, who described himself as a candidate for the U.S. House of Representatives and a former Professor of History at the University of Omaha, wrote the Director seeking "advice" as to how he, Bonner, should answer questions during his campaign concerning the nature and extent of the communist menace in this country. Bonner then set forth an analysis

M. A. Jones to Bishop Memo
RE: UNIVERSITY OF NEW HAMPSHIRE

In this regard and requested the Director's comment and criticism. By outgoing dated 7/17/62, the Director advised Bonner that as a matter of policy he did not furnish specific comments or criticisms such as requested. Bonner was furnished appropriate reprint material and was referred to the Director's book "Masters of Deceit."

Bufiles also indicate that in connection with Bonner's unsuccessful candidacy to represent the Second Congressional District of Nebraska, in which he opposed Congressman Glenn Cunningham, we conducted an Election Laws preliminary investigation at the request of the Department in 1962 relating to this campaign based on an allegation that campaign literature, subsequently identified as distributed by Bonner's campaign committee, did not have identifying data as to source. In connection with our investigation, Bonner was interviewed at which time he stated that he was responsible for some pieces of campaign literature being unlabeled as to source which merely solicited a vote for him and, in some instances, contained his photograph. He indicated that this failure was inadvertent and commented that it should have been obvious to anyone that he and his backers were responsible for the material. Results of our investigation were submitted to the Department and no further action was requested. It is to be noted that in connection with this investigation, it was reported that Bonner and Senator McGovern were classmates at Northwestern University, and that Bonner became McGovern's administrative assistant in early 1963.

A check of the files of the Identification Division disclosed no arrest record identifiable with Bonner.

RECOMMENDATIONS:

1) That attached "Do Not Contact" memorandum be sent to Messrs. Mohr, Sullivan, Brennan, Callahan, Gale, and Rosen.

2) That attached letter advising that there is to be no contact with the University of New Hampshire without prior Bureau approval be sent to SAC, Boston.

SECURITY MATTER - COMMUNIST
*Persons not to be contacted
without Bureau Authority*

Reference my memorandum of 4-19-71 concerning fi
between Inspector Bowers and Congressman
father of subject.

Powell Moore, Assistant Director of Public Information in the Department of Justice, on 4-20-71 advised Inspector Bowers he had talked with Congressman [REDACTED] earlier that day concerning the statement attributed to a Department of Justice spokesman in the 4-11-71 issue of "The Washington Post" reporting that an unnamed Congressman's daughter had been subject of one of the documents stolen from the FBI Office in Media, Pennsylvania. Moore stated he told [REDACTED] the information had been furnished to Washington Post reporter, Ken Clawson, by the Director of Public Information Jack Hushen on 3-25-71 while Hushen was trying to convince "The Washington Post" that the newspaper should not publish any of the stolen documents. Another Washington Post reporter overheard this conversation and later broke the confidence by publishing the statement in the article of 4-11-71. Moore stated the Congressman was primarily upset over the use of the word, "approved," in the article wherein it stated the Congressman, after being advised of the allegation against his daughter, had approved of the FBI investigation. Moore stated the Congressman was assured that Hushen had not used the word, "approved," but had merely stated the Congressman was aware of the FBI's investigation. Moore stated that Congressman [REDACTED] appeared to be concerned primarily because his daughter apparently is upset with him over this entire matter.

For record purposes, it is pointed out Congressman [REDACTED] was not truthful in 4 specific statements he attributed to Bowers in the information he furnished "The Washington Post" as reported in that newspaper on 4-21-71. (Copy of this article is attached.)

First [REDACTED] stated he was told the documents stolen were "fortunately neutral in nature." Actually, he was told the documents did not contain information concerning the allegations made against his daughter.

Memorandum to Mr. Bishop
Re: [redacted] Security Matter - Communist

The Congressman claimed he was told the stolen documents revealed results of check of Swathmore (College) records and the fact that the Swathmore Credit Bureau showed his daughter paid her bills and the Swathmore Police had never heard of her. Actually, he was told the documents reported check of records at Swathmore College and negative checks of credit bureau and police departments.

The Congressman claims he was told the FBI investigation resulted in "nothing derogatory whatsoever" about his daughter. He was actually told only that the investigation had revealed no information to corroborate the original allegations and that this should not be considered an FBI clearance.

The Congressman claimed he was told the information concerning his daughter came from a reliable informant. Actually, he was told the allegation came from a responsible citizen.

It is noted the Congressman persisted in again using the inaccurate statement implying that the FBI has no responsibility to conduct investigations in anything other than the criminal field even after the inaccuracy of this statement had been emphatically pointed out to him.

RECOMMENDATION:

For information.

By letter dated 4/23/71, captioned individual who also identified himself as "Captain, USAF 1945," advised that he strongly supported Congressman Hale Boggs (D-LA) in calling for the Director's removal. In this vituperative and vicious letter, Capers refers to the Director as a "bastard" and "super stupid" and "dangerous." He indicated that he was certain the Bureau has investigated him as a "subversive liberal." He ends his letter: "Even so mild a man as Thomas Jefferson, I think, would have been inclined to shoot you." The Director noted: "Ignore and place on 'no contact' list."

Bufiles indicate that in 1941, Gerald Mortimer Capers, Jr., a professor at Sophie Newcomb College, New Orleans, Louisiana, was the subject of a security-type investigation based on reported statements of a pro-Nazi nature which he allegedly made in his classroom. At this time, Capers was reportedly about 30 years of age. Investigation disclosed him to be a reputable person and no indication of disloyalty was found, and the case was closed. The "I. F. Stone's Weekly" of 5/22/61, carried an open letter signed by 181 historians from academic institutions asking the President to desist from "further intervention in Cuba" and to "lead America on a path of peace through negotiation and constructive social action." Among the signers was Gerald M. Capers of Tulane University.

SUBJECT: THOMAS J. SARDINO
 CHIEF OF POLICE
 SYRACUSE, N.Y. POLICE DEPARTMENT
 POLICE COOPERATION
 INFORMATION CONCERNING

The "Post-Standard," morning newspaper, Syracuse, New York, on April 30, 1971, carried the following article, on Page 15, the first page of the second section:

"SARDINO SAYS FBI EYES PUBLICITY, NOT RESULTS

"Criticizing its lack of cooperation with local law enforcement agencies, Police Chief SARDINO yesterday charged the FBI with being more interested in publicity than in results.

"I'm not an awful big admirer of the FBI," SARDINO told an audience of Syracuse University students. 'It's all give and no take on our part.' He said the Bureau has conducted investigations, knowing the Police Department was working on the same case without sharing information. He said it appears they would rather work alone than share the publicity."

(The balance of the article pertains to SARDINO's comments re minority recruitment by the Police Department and re opposition to legalized gambling.)

These statements by SARDINO were shocking to me and all eight Resident Agents at Syracuse, as relations with the Police

Department have been excellent and no complaints had been received from SARDINO or any member of the Police Department. Syracuse Agents deny knowledge of any such incidents as mentioned by SARDINO. Therefore, at 8:45 A.M. on 4/30/71, with my approval, Senior Resident Agent [redacted] of the Syracuse Resident Agency telephonically contacted the Syracuse Police Department to request an appointment that morning with SARDINO re the news article. Agent [redacted] was advised the Chief was expected in the office at 9:00 A.M. b7C b6

At 9:06 A.M., Agent [redacted] again called SARDINO's office, restating the purpose of his call. After several minutes' delay and referral to the personal secretary of the Chief, he was advised that SARDINO was busy with appointments and could not see him until Monday, May 3. After seeking an appointment time for Friday evening, Saturday or Sunday, SA [redacted] was advised the earliest possible appointment was 3:30 P.M. on Monday, May 3. b6 b7C

At 11:25 A.M., on 4/30/71, Chief SARDINO telephonically contacted SA [redacted] and stated in substance as follows: "I want you to understand I am not trying to duck, evade or delay a meeting with you or anyone else from the FBI. I am very busy and can't see you until Monday. I'm taking a lot of flak on this and I'll see you as soon as I can. I want you to know I have the highest personal regard for local FBI Agents, their ability, integrity, training and esprit de corps, but I'm not in agreement with the general philosophy of the Bureau." b6 b7C

SA [redacted] asked the Chief what he had in mind in making statements about lack of cooperation. SARDINO replied, "I said dissemination and cooperation with the individual Agents was usually good but I can cite specific instances of the Bureau not disseminating or only giving what the FBI feels we should have." SA [redacted] at this point asked the Chief to provide specific illustrations.

AL 80-101

SARDINO replied -- "Well you take LEO CONROY (SAC) and that Top Ten Program on TV --- When he finishes, he says call the nearest office of the FBI, and says nothing about advising local law enforcement agencies. (SAC has Top Ten TV programs in Syracuse, Schenectady and Burlington.) And if I observe any decrease in the cooperation and exchange of information of the FBI in the future, I'll go to my Congressman and Senator at that time."

At this point, SA [] interrupted Chief SARDINO to state he was not receptive to being threatened. Chief SARDINO stated that he was not threatening the Agent. SA [] replied that SARDINO's statement certainly sounded like a threat. Also that the Syracuse Police Department had received complete cooperation and dissemination of information from the FBI in the past and would continue to receive such in the future, and SARDINO had no basis for making such a statement.

b6

b7C

SARDINO stated that he expected such cooperation, however, if he determined that he was not getting the cooperation he expected, he would have to go to the people he had to, to get the cooperation he expected.

b6

b7C

The conversation was terminated with Agent [] reiterating he was only interested in SARDINO citing specific instances in support of his allegations and would meet SARDINO at 3:30 P.M., on 5/3/71, to secure same.

The Syracuse "Herald Journal," evening newspaper, issue of 4/30/71, on Page 23, carried an article entitled -

"'OPEN MINDED' SARDINO HOLDS OFF ON OTB"

(The first five paragraphs of this article report upon Chief SARDINO's opinions on off track betting, then continues as follows:)

AL 80-101

"The Chief also commented upon his criticism of the FBI last night in which he said they did not share enough information with the Police Department during investigations.

"Police sources said that the Chief will be meeting with head Syracuse area FBI Agent [redacted] Monday to discuss SARDINO's criticism. [redacted] refused to comment today. b6 b7C

"The Police Chief declined to say whether he favors FBI Director J. EGAR HOOVER's removal from the top post.

"Recently Hoover has come under fire from Maine Senator EDMUND MUSKIE and other prominent Democrats for alleged wiretapping and surveillance procedures.

"SARDINO said that HOOVER has been 'an outstanding public servant and I have high regard for him as a law enforcement officer.'"

INTERVIEW WITH CHIEF SARDINO:

I, with SRA [redacted] appeared at the office of Chief SARDINO on 5/3/71. SARDINO was accompanied by First Deputy Chief JOHN C. DILLON. b6 b7C

I advised SARDINO that we were present to determine the basis for the remarks attributed to SARDINO in the news article and to secure specific instances of lack of cooperation, failure to disseminate and publicity seeking on the part of the FBI. I stated I had completely cooperated with all law enforcement agencies within the Albany Division during the three years I have been assigned to Albany and I had not received any complaints of this nature and desired to know why the Chief hadn't come to me or Agent [redacted] if he had any complaints as reported in the newspaper.

Chief SARDINO advised he wanted to set forth the background and atmosphere in which the remarks had been made. He stated he had been addressing a group of thirty journalism students at Syracuse University to give them experience in interviewing. He gave a talk of about fifteen minutes during which he commented upon the operations of the Syracuse Police Department and the problems associated therewith. At the end of his talk, during a question and answer period which covered many subjects, he was asked how he felt about the FBI and the degree of cooperation with his Department. His response included his high regard for the ability, integrity and esprit de corps of FBI Agents which he considers the best trained investigative agency in the world, that he considered the cooperation and relations at Syracuse to be good, but he felt the cooperation could be better. He stated the remarks were made in an academic atmosphere between instructor and students and he did not suspect that he would be quoted. At one point, later in the discussion, SARDINO said he resented my questioning him concerning comments he had made in an academic setting. I told him at that point that he had made the statements publically, that they appeared in the public press, and that I had a perfect right to question him concerning the basis of his statements.

I asked if the comments attributed to him in the news article were accurate and Chief SARDINO replied on this and several subsequent occasions, "In general, yes." However, he denied making any comments to the effect that the FBI was more interested in publicity than results. The other quotations in the news articles were read to him and he acknowledged that they were generally accurate and that was how he did feel. When asked for specific instances in support of his statements, SARDINO stated he had been busy over the weekend and had not prepared specific cases to cite although he acknowledged SA [] had requested such on April 30th. He stated that if he was pushed to do so, he could cite examples but at that time he was not prepared to cite a single example.

b6

b7C

AL 30-101

Persistent questioning elicited the same response on several occasions. Subsequently, after more than an hour's discussion, SARDINO advised that he could think of an "issue" but he did not care to cite it at this time because I would have to take administrative action against a well regarded Agent. He alleged the Agent had been personally told about a statement he had made, had not done it again, and he did not wish to discuss the matter any further. He would not expand or comment further in this regard. He inferred that this situation had occurred several years ago.

SARDINO repeatedly stated he was not proud or happy over the news article, that it had caused him a lot of flak and he had even been criticized by his family, that he was sorry the article had appeared and he had not intended his statements for publication. He acknowledged that he was in agreement with my stand of requesting specific instances be cited and that he would do likewise if he were in a reverse position. He agreed that differences between the agencies, if they existed, should have been resolved on a businesslike professional level by communication between himself and me or with Agent [redacted]. He still reiterated he felt greater cooperation by the FBI could be exhibited. When I pressed for an example of where better current cooperation was needed, SARDINO's only example was that he believed the FBI in its Top Ten TV Program should tell the public to call the nearest local law enforcement agency as well as the FBI.

b6

b7C

I explained to SARDINO that the Top Ten Program was nationally coordinated and involved continuous active investigation by each of fifty-nine Field Offices and that we considered it absolutely necessary to have all information funneled into the FBI so that proper coordination and planning could be effected. I pointed out to

AL 80-101

SARDINO that many Top Ten arrests are made with the cooperation and assistance of State, County and local law enforcement officers. SARDINO replied that he understood the FBI's official position but he was still entitled to his opinion.

I asked the Chief if he didn't feel he owed the FBI proof of instances supporting his statements or in the absence of same, a public retraction.

SARDINO advised that he wanted to "let the matter lay and become dormant," that he didn't want to continue the public controversy; also that if he wanted to state specific instances that he, and only he, would decide when and if he would do so. He stated that at some indefinite time in the future, if he deemed it necessary, and the matter did not drop, he might decide to make some public statement about specific instances as requested. He refused to set any time period for his reply or statement.

SA [] advised Chief SARDINO that he had numerous instances of the FBI assisting the Syracuse Police Department and of disseminating valuable information to it. Chief SARDINO acknowledged that such was undoubtedly true and that he had good relations with local FBI Agents and he was sorry he had caused me, Agent [] or any other local Agent the embarrassment which resulted from the news article.

b6
b7C

Throughout the hour-and-a-half interview, repetitious demand for specific cases to substantiate the allegations or public retraction by SARDINO also only met with his reply that the matter was being blown out of all proportion under the circumstances, that he would like the matter to die without further public comment or controversy, that at some future date possibly, he might provide specific instances of lack of cooperation or he might make further public comment, but only he would decide when and if such explanations or statements would be made. SARDINO again

AL 80-101

make the comment that if there was any decrease in the cooperation received from the FBI or in the amount of information received from it, he would not hesitate to complain to the Director, the Attorney General or the U. S. Representatives and Senators from New York State.

It is my sincere belief that I, and the Agents of the Syracuse Resident Agency have been completely cooperative with the Syracuse Police Department and have disseminated in accordance with Bureau requirements and further, that the Agents at Syracuse have gone beyond what would be expected of them to assist Syracuse Police Department Personnel and cement good police relations. It should be noted that in the current issue of the FBI Law Enforcement Bulletin, center fold, there is an article entitled "Experiment in Police Management - The Crime Control Team" by Chief SARDINO which was secured by SA [redacted] from SARDINO after six months' effort and which has resulted in national publicity for his agency.

b6

b7C

RECOMMENDATION:

In view of Chief SARDINO's refusal at this time to document his charges or to make a public retraction of his allegations, I recommend that no National Academy applicants be accepted from his Department and that no police training be afforded to his Department until there is a change in SARDINO's official attitude toward the Bureau. I also recommend that we deal circumspectly and at arm's length with SARDINO and officials in his Department.

By letter of 5/12/71, SAC, Las Vegas, brought to the Bureau's attention a news item from the "Reno Evening Gazette," Reno, Nevada, dated 5/3/71, which reported that at a recent meeting in Seattle, Washington, the Academy of Criminal Justice Sciences passed a resolution criticizing the Director's withdrawal of Bureau employees from courses at John Jay College of Criminal Justice, New York City. Captioned individual, who is a member of the Executive Committee of the Academy, reportedly disseminated to the press in his area particulars of this resolution. We have been informed on a highly confidential basis that release of this information drew for Braunstein a critical letter from the Director of the Nevada Technical Institute and caused the President of the University of Nevada to admonish Braunstein to make no further statements along this line. SAC, Las Vegas noted that Braunstein, in the past, had been cooperative and highly complimentary of the FBI. In connection with this matter, the Director noted that Braunstein should be placed on the "Do Not Contact" list.

Bufiles contain no information identifiable with Braunstein.

This will acknowledge receipt of your letter of May 26th relative to surveillance of Irish Americans by the F. B. I. Your denial of Justice Department surveillance of Americans of Irish descent on behalf of the British government conflicts with the facts and the contents of your own files.

I have personally talked to many victims of this practice, some in the Buffalo area. In one case, I represented a victim and found that Justice Department attorneys soon took off when it came time to face an attorney asking questions about this matter. F. B. I. cooperation with Scotland Yard has already been conceded to me by one F. B. I. official.

You call my actions "irresponsible"; your actions in spying on black American groups and others in purely political affairs are "responsible" by your own private standards. The stolen Media papers have served to alert Congress and the public about your method of operations. You cannot exile me to the wilds of Montana and I cannot be intimidated, Mr. Hoover. Your letter concedes that you received my letter to Congressman Dulski and thereupon, sent two (2) F. B. I. agents to my office in what was an obvious effort to scare and intimidate me. Apparently a citizen can no longer petition a member of Congress without facing a visit from the F. B. I. Your letter labels my statements as a "false charge". I am willing to have a Congressional committee test the truth or falsity of the situation. Are you? You have never denied making public the telephone

tap on the phone of the late Martin Luther King to certain third parties. Many members of Congress seem satisfied that the F. B. I. has tapped their phones.

In acting as leg-man for the British government, you only demean the F. B. I. You serve neither the bureau or the public interest and only aid the communist conspiracy in this country. The SDS and Mafia operations, both in and out of the business world, apparently are relatively free of F. B. I. surveillance. American citizens criticizing the British government are not. I happen to believe that the F. B. I. is a very necessary agency of the government but its present misuse in political matters is a clear threat to constitutional government. We are, and must remain, a government of laws, not of men. An Irish American's criticism of the British government happens to be none of your business. It is not yet a crime to exercise one's right of free speech. It grieves me to see my country being torn apart by officials who are supposed to maintain law and order and constitutional government. The sensitivity of the British government to public criticism and activities by American citizens over the Ulster situation is no basis to deny American citizens their rights of free speech and privacy. Scotland Yard cannot carry out surveillance in the United States. You are doing it for them. It would appear from your attitude that only congressional action or an order of the Federal District Court can stop these practices.

I would appreciate you not sending any more F. B. I. agents to my office. You could have denied the charges in a letter. Instead, you had 2 agents visit me. As you must know by now, you cannot intimidate me.

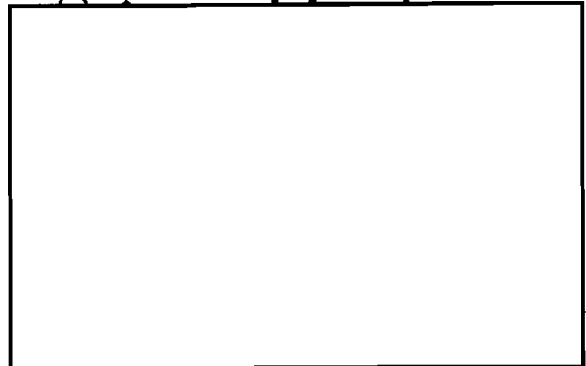

Respectfully yours,

PERSONS Not to be Contacted Without Bureau Authority

Reference my previous memoranda to you dated 5/12/71 and 5/25/71, captioned as above, by which it was disclosed that captioned individual had sent letters to Congressmen falsely claiming that the FBI had kept under surveillance hundreds of Irish Americans at the specific request of Scotland Yard. It was recommended and approved the Congressmen involved be advised that the allegations were completely false and that the Buffalo Office contact [redacted] to straighten him out. The Buffalo Office contacted [redacted] who seemed to feel that the FBI was lying because it would not place its denial in writing. Buffalo recommended no further contact with [redacted] unless absolutely necessary in view of his deep-seated and emotional opinions. It was recommended and approved that a brief letter (dated 5/26/71) be sent to [redacted] specifically denying the allegations he made.

By letter of 6/4/71, [redacted] acknowledged receipt of our letter of 5/26/71 and persisted in his refusal to accept our statement of fact. He also launched into a long invective against the Director and the Bureau charging, among other things, that we spy on Black American groups and others in purely political affairs, improperly used telephone taps, and act as "leg-man for the British government." He also objected to the visit to his office by Buffalo Agents and stated "You cannot intimidate me." In connection with this letter the Director noted: "Ignore. Place on no contact list."

DEROGATORY REMARKS AGAINST
THE DIRECTOR

PERSONS NOT TO BE CONTACTED
WITHOUT BUREAU AUTHORITY

Dr. Gentile was contacted at his office on 9/13/71 by SA [redacted] of the New York Office, during an investigation to locate a patient of Dr. Gentile's who is the subject of a Bureau case. During the interview Dr. Gentile became hostile and was reluctant to assist the FBI because he believed the Director and the FBI enjoyed too much power. He indicated that as a medical doctor he felt that he could state that Mr. Hoover was a "mental imbecile" and since the Director was never married, he was obviously a homosexual. He also added that he considered over one half the celibate clergy to be homosexuals.

According to SAC, New York, SA [redacted] interrupted Dr. Gentile and vigorously admonished him for making these false and groundless statements. SA [redacted] pointed out to Dr. Gentile that such statements were degrading to a person of Mr. Hoover's stature who has spent his entire life bettering the image of law enforcement and striving to insure that everyone was guaranteed his full rights and privileges. SA [redacted] pointed out to Dr. Gentile that such defaming remarks against a man of the Director's renowned moral integrity were particularly out of keeping with what should be expected of a professional man.

Dr. Gentile is the uncle of [redacted] wife of SA [redacted] who is presently assigned to the New York Office.

SA [redacted] advised that his contact with Dr. Gentile has been infrequent and estimates that he sees Dr. Gentile 2 or 3 times a year, usually at family social functions such as Christmas and Thanksgiving. According to SA [redacted] Dr. Gentile has at no time in [redacted] presence discussed or criticized the FBI or the Director. The files of the New York Office and the Bureau contain no identifiable information re Dr. Gentile. SA [redacted] has been instructed to be circumspect in any contact he has with Dr. Gentile.

DATE 2-1-82 BY SPAC/SC

By communication dated 10-14-71 our Philadelphia Office advised that on 10-12-71 a student at the University of Pennsylvania, named [redacted] appeared at the Philadelphia Office claiming to have information concerning students from the University of Pennsylvania who were planning destruction of Selective Service draft board records. Interviewing Agent was able to determine that [redacted] was furnishing false information, and upon questioning, she stated that this attempt was made in connection with a course she was taking at the University of Pennsylvania and at the instructions of her professor there, [redacted]. According to [redacted] she and several other students were instructed by [redacted] to place themselves in role playing situations such as applying for public welfare, public housing, and appearing at the FBI in the role of informant. Students were instructed to furnish false names and to ask how much money the information would be worth to the FBI. [redacted] furnished a signed statement admitting she furnished false information and setting forth the true purpose of her visit to the FBI office.

This matter was discussed with Assistant United States Attorney J. Clayton Undercofler, III, Eastern District of Pennsylvania, and he declined prosecution of both [redacted] and [redacted] due to lack of criminal intent.

On 10-13-71 [redacted] telephonically contacted the Agent who interviewed [redacted] and asked him to appear before her class for discussion of the incident. At this time, she admitted making class assignments for the previously described field trips but denied specifically instructing [redacted] to visit the FBI office or to use informant coverage. Her request for the Agent to appear was denied. It was recommended that SAC, Philadelphia, prepare and personally deliver a letter to the Provost, University of Pennsylvania, detailing acts of both [redacted] and [redacted] and asking if this scheme had the official sanction of the University and, if not, what steps will be taken by the University to correct and prevent any reoccurrence.

Bassett to Mr. Callahan memorandum dated 10-20-71 captioned "Reverend James Halpin, Boston College, BUAP-- Recruitment" in which the actions of captioned individual during a Federal College Career Day Program on the Boston College campus on 10-7-71 are set forth. As indicated in referenced memorandum, Father Halpin approached an Agent of the Boston Office participating in the career day program and strongly indicated that his departure was desired and that there might be trouble if the Agent remained. On 10-7-71 SA [redacted] the Boston Office, participated in the Federal College Career Day Programs initiated by the U.S. Civil Service Commission (CSC) in the Boston Region at Boston College. There was a great amount of interest by students attending and a large volume of pamphlet information was distributed. SA [redacted] was approached by Father James Halpin and requested to accompany the priest who explained that "a problem had arisen." Halpin explained that some of the students had collected nearby and stated they intended to physically eject SA [redacted] from the premises for being on the campus "without any warning" to the students. According to Halpin, he heard about their intentions and had tried to persuade the students not to precipitate an incident, however, they told Halpin they would give him ten minutes to find out what SA [redacted] was doing there."

SA [redacted] advised Halpin that any explanation as to the Federal College Career Day Programs and arrangements for same that were made with the Boston College would have to be obtained from the Recruiting and College Relations Officer for the Boston Region of the CSC who was on the premises. Halpin replied he did not wish to speak to that individual and stated that [redacted] continued presence on the campus might cause some adverse reaction from the students. Although Halpin did not actually order [redacted] off the campus, he strongly indicated his departure was desired and stated that there might be trouble if he remained. Halpin was told that since he as a faculty member and part of the college administration was stating that [redacted] was unwelcome on the campus, SA [redacted] would leave the campus.

SA [redacted] then informed Father Edward Hanrahan, Dean of Student Affairs, of the foregoing and Hanrahan stated that SA [redacted] presence on the campus was welcomed by the administration. Hanrahan stated Halpin was acting on his own and was not representing the administration. Halpin was orally reprimanded by Hanrahan for his actions and was told that he was not

to again represent the administration in such a capacity. According to Hanrahan, Halpin stated he would write a letter of apology to SA [redacted] but this was not permitted as it was felt such a letter could be construed as Halpin again being considered a spokesman for the college.

Father Hanrahan expressed his personal regrets and stated the incident in no way indicated the attitude of the administration and the Boston student body in general concerning the FBI and that he had determined that the small number of students who opposed SA [redacted] presence on campus were those considered by Father Hanrahan to be "radicals." It is noted

[redacted] the Boston Office and he advised that he [redacted] and furnish this information to the Boston Office. On 10-13-71 Hanrahan advised that an administrative meeting was held on 10-8-71 and was comprised of individuals from both the religious and laity. Halpin attended the meeting and was rebuked and criticized for his behavior toward SA [redacted] and was particularly admonished by two lay members who were of the opinion his action could have been construed to reflect the thinking of the administration. He was instructed that in the future he was to take no action of this type upon himself. Father Hanrahan advised that a number of students have expressed their dissatisfaction for the way in which SA [redacted] was treated and the student president pro tem formally complained to Father Hanrahan for the way in which SA [redacted] was treated. Hanrahan summarized his comments by stating that the overriding attitude of the administration at Boston College is overwhelmingly pro Bureau.

Boston indices contain no references identifiable with James Halpin who currently serves in the capacity at Boston College as a part-time Chaplin as well as conducting a seminar on "war and peace." Father Hanrahan advised that Halpin took part with other priests in the blockade of the John F. Kennedy Federal Building in Boston on 5-6-71. Bureau files reveal that one James Halpin, Boston College, attended a conference at the University of Michigan 8/17-22/71 which was sponsored by the Clergy and Laymen Concerned about Vietnam. Agents of the Boston Office have been instructed to be most circumspect in any future contacts with Father James Halpin.

RECOMMENDATION:

In view of the unauthorized action taken by Reverend James Halpin concerning the Bureau's recruiting efforts at Boston College, it is recommended that he be placed on the "Do Not Contact" list.

Because of this incident and in view of information in our files regarding Scott's [redacted] the Director instructed "Place Scott's office on restricted list." Bureau letter 6-16-65, to SAC Minneapolis instructed that Scott and his office were not to be contacted without prior Bureau authority, and by memorandum of 6-16-65, appropriate Bureau officials were advised of the status of Scott and his office.

By letter to the Bureau of 2-3-69, SAC, Minneapolis advised that Scott continued to speak well of the Director and the Bureau but that his [redacted] [redacted] [redacted] were still such that he could be most unrenable at times. It was, however, proposed that SAC, Minneapolis be permitted to contact Scott, should such be necessary in pursuance of the Bureau's interests. (1) That pursuant to the request of SAC, Minneapolis, George M. Scott, Hennepin County Attorney, Minneapolis, Minnesota, be removed from the "Do Not Contact" list.

We are presently conducting an investigation of Fernandez at the request of The White House as he is being considered for a Presidential appointment, position not stated.

Fernandez's daughter, April, is a student at Mills College, Oakland, California. The Manual of Rules and Regulations requires that in such cases the residences of close relatives must be verified and arrest checks made.

San Francisco has advised that Professor Raymond Wick of Mills College, April Fernandez's counselor, was contacted during the investigation to verify her residence on the campus. At the conclusion of the interview, Wick stated he is opposed to this type of investigation and requested that he not be contacted in such matters in the future.

San Francisco advised that, in view of his attitude, Wick will not be contacted in the future investigations by the San Francisco office.

San Francisco files and Bureau files were checked and contain no record identifiable with Dr. Wick.

ACTION: In view of his attitude, it is recommended that Wick be placed on the list of persons not to be contacted without prior Bureau authority.

SUBJECT: NOT TO CONTACT LIST

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 2-1-88 BY SP-1 AG/STC/MSJ

The Not To Contact list is a card index of 332 individuals whose statements or attitude, generally when contacted on official business, gave rise to doubts as to the advisability of contacting them again. When a person was placed on the Not To Contact list, the Field Office covering the residence or occupation or both was advised that this particular individual should not be contacted without prior Bureau authority. Thus, the Not To Contact list did not prohibit future contact, but specified it could be made only after clearance with the Bureau.

Examples of the type of individuals on this list are set forth below.

Dr. Vannevar Bush: Dr. Bush was placed on the Not To Contact list in June, 1964, at which time he was connected with the Massachusetts Institute of Technology. He was so designated when he made derogatory statements concerning the Bureau when contacted on an applicant-type case.

Rex Stout: Rex Stout is an author who was designated for this list in 1965 because of his then-new mystery novel, "The Doorbell Rang." This novel presented a highly distorted and most unfavorable picture of the FBI in its operations as they relate to the plot of the book.

M. A. Jones to Mr. Bishop Memo
RE: NOT TO CONTACT LIST

OBSERVATIONS:

It is not felt that the list continues to serve a useful purpose, and it is further believed that the responsibility of restricting contact with a person who is antagonistic toward the FBI or law enforcement in general should be that of the Agent in Charge.

RECOMMENDATIONS:

1. That the attached memorandum be forwarded to all offices.
2. That if approved, the attached memorandum be returned to the Crime Records Division for dissemination to the field.

Acting Director, FBI

NOT TO CONTACT LIST

Persons to be contacted
Bureau

As you know, in the past from time to time, various individuals have been placed on ~~excluded~~ list. This action has been taken because of derogatory statements or adverse action regarding the FBI or law enforcement agencies in general by the individuals involved.

This is to advise you that the Not To Contact list is being discontinued, and you should use your own best judgment if a question arises as to the desirability of a particular contact in an investigative matter.
